

KAPPA MU EPSILON- MATH CLUB

JOIN KME IN LEARNING HOW TO USE SAGE!

*Monday, February 25th at 6 in
Pearce 227*

What is Sage?

Sage is an open-source piece of mathematics software to help you do your math homework. It combines many existing open-source packages into a simple Python-based language that anyone can use!

What should I bring?

Make sure to bring a laptop to this KME event, so you can follow along.

What do I need to know?

ABSOLUTELY NOTHING! This will be a great learning experience whether you are skilled in using mathematical software or never have coded in your life.
