

Kappa Mu Epsilon

Mathematics Honor Society

**KME is hosting a panel for
math-related career paths!**

**We will be inviting a Master's student, a Ph.D. student,
a high school teacher, a university professor, and more!**

We all have uncertainties about our future. This is your chance to finally get some questions answered! If you have a math-related major and are planning to go to graduate school, come find out what that looks like! If you are going into math education, get advice from a math teacher! Our panel will consist of people from all stretches of math-related careers. Anyone is welcome to come, since we all deserve to have a little less uncertainty in our lives.

**Tuesday, November 21
@ 6:30 in Pearce 227**
