
MATH AND ART

**OCTOBER 15TH AT 6:30 TO 7:30 IN
PEARCE 226**

Math and art may seem like they lay in different fields, but Professor Emeritus Robert Chaffer is here to give us a talk about the beauty of combining the two. All of his pieces use math in some sort of way from using a mathematical launching pad, to using algorithms, or illustrating some math concept. All majors are welcome and pizza will be provided.
